### **Russia's National Rating Agency rates GPB Global Resources AA.bs Stable for the first time**

Russia's National Rating Agency has assigned its 'AA.bs' business stability rating to GPB Global Resources B.V. (GPB GR). The outlook for the rating is Stable. The Company gets a business stability rating from the NRA for the first time.

According to the rating Agency's assessment the assigned rating reflects the "stable financial profile of ([Petrozamora S.A.](#)), the group's key operating company". Petrozamora S.A. "maintains performance metrics despite the adverse changes in the market" that have occurred since the project's inception in 2012. Oil production is expected to grow in the next few years due to higher capital expenditures.

The Agency further noted that "GPB GR has been demonstrating strong profitability throughout the period under review, in addition to its adequate equity level and low debt burden. Importantly, the group fully controls the proceeds from its oil deliveries through a special collection account. The rating is also underpinned by the appreciation and increasing investment attractiveness of GPB GR's key asset".
